ABOUT ME

Software Developer with a demonstrated history in Information technology and Software Engineering. Skilled in C#, .NET Core, JavaScript and with the best there in software design and architectural patterns.

I consider myself as self-motivated, organized, and capable of working under pressure with good interpersonal skills. Competent in problem solving skills & object-oriented analytical skills with the ability to write clean and maintainable codes. Keen to learn and adapt to new technologies as much as possible with minimal supervision through self-learning.
